PROFESSIONAL SUMMARY

Frontend Developer passionate about building responsive and user-friendly web applications. Skilled in HTML, CSS, JavaScript, React.js, Bootstrap, and Git/GitHub. Currently pursuing an MCA while continuously improving my skills by building real-world projects. Actively looking for a Frontend Developer opportunity where I can contribute, gain practical experience, and grow.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript, React.js, Bootstrap
Version Control	Git, GitHub
Tools & Practices	VS Code, Chrome DevTools, Responsive Design

PROJECTS

Clinic App

React.js, Bootstrap, HTML, CSS

- Built a clinic website letting patients browse the practice and book appointments online.
- Structured the UI as reusable React components with a Bootstrap-based responsive layout.

Google Gemini Clone

React.js, JavaScript, CSS

- Recreated the Gemini chat interface, handling prompt submission and asynchronous responses.
- Managed multi-step conversation state and a recent-prompt sidebar across the interface.

TextUtils

React.js, Bootstrap, CSS

- Built a real-time text utility supporting case conversion, extra-space removal, and live word/character counts.
- Implemented a dark/light mode toggle and managed all state with React hooks.
